

APPLIED HEALTH SCIENCES

Real Opportunities

Many of the fastest growing occupations in the country today are in the health sciences field. According to the U.S. Department of Labor, health sciences occupations are expected to generate as many as 3 million new jobs by 2022.

This interdisciplinary program equips you with the knowledge and skills necessary to be competitive for a wide range of advanced degrees and/or career opportunities in the professional fields of Physical Therapy, Occupational Therapy, Chiropractic, Physician Assistant, Athletic Training, Kinesiology/Exercise Science, and Public Health.

Students are required to gain a minimum of 300 hours of professional experience through internships directly relating to their specific area of interest. Exposure to the actual “job” is a requirement for most graduate programs and helps students gain a better understanding of the career.

Your Parkside Experience

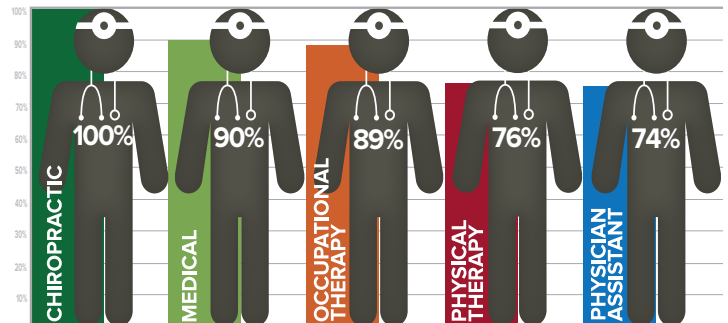

- Internship opportunities with more than 30 hospitals and clinics
