

SPANISH

Real Opportunities

Pursuing a major in Spanish at Parkside is much more than simply learning to speak a language -- although that does provide many benefits, most notably making you a more valuable candidate for most jobs. The Spanish major at Parkside is about discovering and exploring a language with a rich history that is spoken throughout the world, including in the United States. A knowledge of Spanish also exposes you to noteworthy modern and historical literature, celebrations, and other exciting cultural expressions.

Parkside students very often pursue a double major or pair a Spanish major with a minor in business management, criminal justice, communication, legal studies, political science, and more.

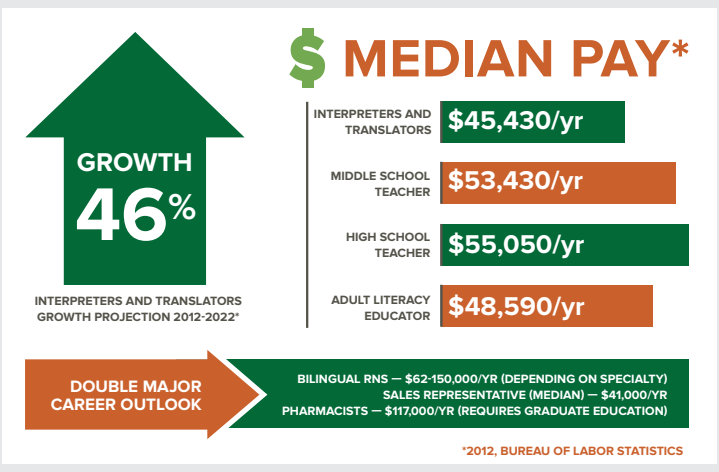

Parkside Spanish students converse with adult English language learners at Gateway Technical College.

Your Parkside Experience

- Put your learning to practice with community-based learning opportunities
- Study abroad: improve your Spanish skills by living in a Spanish-speaking country for a semester
- Do an internship in a bilingual setting such as health care, writing, or education
- Opt to learn Spanish terminology for health-related occupations, business, and many other fields.

Career Outlook

Courses You Might Take
