

HISTORY

Real Opportunities

History is the intellectual discipline that describes, reconstructs, and interprets the human past in order to inform our sense of the present. Historians study vast geographical areas, long periods of time, and a wide array of primary and secondary materials. Historians also employ many interdisciplinary approaches such as social, political, diplomatic, biographical, military, race, class, and gender to fully comprehend a historical place and time.

You will learn how to read and analyze primary sources, write historical interpretations based on historical facts, deliver presentations on historical sources, and challenge myths and misconceptions.

History prepares you for careers in

Research organizations
Government agencies
Historical societies
Consulting firms
Museums
Archives
Nonprofits

Median Wage* \$52,480

*2012, Bureau of Labor Statistics

Courses You'll Take
